

## Dennis Crowley

I have been playing the piano and organ for many decades in the New York area and more recently in Florida. I learned on a pipe organ, but am as comfortable on an electronic. I am capable on an Allen, Rodgers, Johannes, or even a Baldwin. I have played on a 150 years old pipe organ, until it went on fire, as well as on much more recent pipes, which are in better condition. Over the years I have had occasion to play in Catholic, Episcopal, Lutheran, Methodist, Presbyterian, Disciples of Christ, Reformed, and other churches for weekend services, weddings, funerals/memorial services as well as special events, such as an ordination, first communion, confirmation, or other. I am well versed in the order of service for a wide variety of denominations, sight read proficiently, and am very adaptable to changing situations. Have worked with opera singers, and the mother of the bride at a wedding. Very versatile. Classically trained, but willing and able to do contemporary. Since I am a realtor in Sarasota, my time is flexible, and I can accommodate substitute needs even on short notice, if not previously booked, and do not hesitate to travel north to Tampa and Clearwater, and south to Port Charlotte and Punta Gorda.
